A five-man committee to head up the selection of 11 boys from Adams county to attend Camp Penn, the Pennsylvania recreational camp to be held this summer at Indiantown Gap was named today by J. Floyd Slaybaugh, county superintendent of schools.

Serving on the committee will be Mr. Slaybaugh as chairman; Mares Sherman, president of the local Rotary club and a past president of the local Chamber of Commerce; Dr. Lloyd C. Keefeauver, Gettysburg superintendent of schools; Dr. Louis King and G. Henry Roth.

The group will meet Monday evening at 8 o'clock at the court house to discuss the method of selection of the 11 county boys and to draft a letter to be sent to all supervising principals of the public schools and the heads of the parochial schools in the county outlining the plan and asking them to suggest some names for selection.

Girls, Too, Next Year

The camp will be limited this year to boys who have passed their 14th birthdays by July 1, 1949, but who have not reached their 17th birthday by that date, Slaybaugh said.

School officials will aid in the selection not only by naming candidates to attend the camp but will check personal histories, and arrange to furnish copies of the boy's school, health and dental records.

The camp will be held from July 13 to July 29 this year. Only boys will be admitted to the camp this year, while next year there will be a similar camp for girls.

Members of the committee said today it is hoped that selection of the youngsters may be made throughout the county, with the youths drawn from as many sections of the county as possible.

Her only jewelry was a gold necklace worn by her grandmother on her wedding day. She carried a bouquet of white roses, white carnations and stephanotis which were tied with white ribbon.

\$10,130 Damage Action Filed

Damages amounting to \$10,130 are claimed in a suit started in the York common pleas court by Leanna Foster, Gordonsville, Va., against Florence V. and Walter Byron and Kenneth A. Walker, New Oxford R. D. 1. The complaint was filed by Attorneys Luria and Still, Paul N. Yost, J. Richard Budding and Raymond W. Smith, counsel for the plaintiff.

The action grows out of an accident on the night of November 29, 1947, when an automobile, owned by Mrs. Byron and driven at the time by Walker, ran into a group of pedestrians along the Lincoln highway, approximately an eighth of a mile west of Thomasville.

One was killed and the plaintiff suffered severe injuries which are declared to be of a permanent nature.

The complaint avers that the defendants were negligent in the operation of their car in that it was operated at a high and dangerous rate of speed and not under proper control.

The plaintiff, says the complaint, was lawfully walking eastwardly on the berm of the northern side of the highway and the defendants' car was moving in the opposite direction.

The complaint lists expenditures for hospitalization, doctors, nurses and other costs as a result of the injuries amounting to \$1,630.

BACCALAUREATE SERMON GIVEN BY DR. R. C. WOLF TO SEMINARIANS

A warning against the inroads of humanism among Christian clergymen and laity was sounded by Dr. Richard C. Wolf in the graduation sermon ending the 123rd year of the Gettysburg Lutheran Theological seminary Friday evening in the Church of the Abiding Presence on the seminary campus.

Doctor Wolf, who graduated from the seminary here only 12 years ago, will go to Yale university in the fall to head the department of American church history in the divinity school there.

The baccalaureate degrees to the members of the graduating class and five postgraduate degrees of master of sacred theology were conferred by Dr. Abdel Ross Wentz, president of the seminary, after the candidates had been presented before an audience that filled the church to capacity by Dr. Carl C. Rasmussen, secretary of the faculty.

"Called By Christ" The service was conducted by Dr. Harvey D. Hoover of the seminary faculty and there was an anthem "Bless the Lord, O My Soul" by the Seminary choir directed by Robert Smith Clippinger, who also is the church organist.

Doctor Wolf used as his text a part of John 15:16: "Ye have not chosen me but I have chosen you, that ye should go and bring forth fruit." He emphasized that true ministers of Christ are "called by Him" and do not enter the ministry as a man chooses a profession of his own volition.

He spoke of the widespread feeling that the central idea in life is the welfare of man. "When what man is, does, thinks and feels determines what God is we have gone far afield from the words of the Scripture," he said. He declared there is a widespread feeling among the clergy of their self-importance and indispensability and I might add that this is true among the laity, too." He interpreted this situation as a result of the growth of humanism within the church.

Final Admonition The speaker referred to the reasons for entering the Christian ministry given by the members of the (Please Turn to Page 2)

senior class upon their entrance into seminary and recalled that only one had said he had been "called by Christ."

Pointing out that Christ's selection of the first apostles was made apparently without regard to their human possibilities but with a view to what they could be enabled to do through Christ, he said: "Christ not only calls men to be his ministers but he ordains them and prepares them for purposeful and effective service that will bear eternal fruits when Christ is there."

Dr. Wolf declared it is "almost tragic" to see the work of a church so tied to a minister that it fails when he leaves. "When the fruits of service in a church go no deeper than the minister it must fail," he asserted. "But when the fruits come from Christ they are eternal. The abiding presence of the Master is the determining factor of a fruitful ministry and my admonition to you is to go forth with His voice ringing in your ears: 'I have chosen you and ordained you that ye should go and bring forth fruit,'" he concluded.

Communist Wedges Close On Shanghai

Shanghai, May 14 (AP)—Two Communist wedges plunged closer to Shanghai's heart today. The thunder of artillery resounded through the tense city.

The roar of a battle less than 20 miles to the north rolled over Shanghai's lifeline to the sea all the way to Woosung. It is the fortress guarding the confluence of the Whangpoo and the Yangtze.

To the southwest of Shanghai, another Communist thrust drove within 20 miles of the city's center. In the path, less than 15 miles away, was Lungwha airport. This is the last air link with the outside.

Britons in Shanghai were given a final evacuation warning. Deadline for passport clearance was fixed for 8 p. m. tomorrow.

RED FAILURE ABROAD MAY INSURE PEACE

By DEWITT MACKENZIE

(AP Foreign Affairs Analyst)
Paul G. Hoffman, director of the Economic Cooperation Administration, told an Indiana University audience the other day that "our way of life will be secure if Europe is strong and free in 1952."

Mr. Hoffman's prediction of course is based on the fact that the Marshall Plan is due to wind up its operations in 1952. He said the plan had "stopped the Kremlin cold" in Western Europe, and that if recovery is accomplished by then "it is more than probable that the Kremlin will decide on a policy of 'live and let live.'"

That's a prophecy which invites analysis, and since the E.C.A. director isn't here to do it for us, let's take a look at it ourselves. As I see it the position is this:

"Cold War" Halted
It's true that the "cold war" aspect of the Communist offensive has been halted along the Stettin-Adriatic line through central Europe. However, the revolutionary tactics of Communists in Western European countries—especially the powerful French and Italian parties—continue in full force. They will gain control of their governments if it is humanly possible.

Meantime, out in the Far East Communist armies are sweeping southward across China. Northern Korea is Communist, and is reaching for control of the southern half of that strategic land. Burma, Indonesia and other Asiatic countries are torn by Communist uprisings. As the signs now read the Orient is likely to become increasingly a theater of conflict between Communism and Democracy.

This being so, what basis do we find for predicting that our way of life will be secure if Europe is strong and free in 1952?

Well, for one thing, while the Far East might in time become the decisive theater in the battle of the isms, the fact remains that the Western world's greatest immediate threat comes from Europe. True, that threat has lessened measurably with the success of the Marshall Plan and the signing of the Atlantic Pact. But the danger still exists and will continue to exist, despite Western Europe's recovery, until some further great development takes place.

What new development could alter this grim picture? There seems to be only one answer to that at this reading. It would be the failure of Communism to hold the peoples of the various countries which have been absorbed into the Soviet bloc. That is to say, the rejection of Communism by these peoples.

METHODISTS ASSAIL REDS

Allentown, Pa., May 14 (AP)—The Philadelphia conference of the Methodist church is on record against what it calls suppression of the freedom of Protestants in Spain. The conference adopted a resolution last night which said "the freedom of worship has been curtailed and the Evangelistic enterprise in Spain has been hampered."

In other actions more than 700 delegates:
1. Attacked Communism.
2. Accused the Russians of seeking worldwide revolution and the dictatorship of the proletariat.
3. Asked the U. S. government to appropriate immediately \$500,000,000 to China to defend and maintain freedom.

The conference continued its stand on temperance and said it would not cease its fight until "a stainless flag is raised above a shameless nation."

The group selected sewing as its project for the summer. The next meeting will be held at the Idaville school house, Tuesday evening, May 31.

Scott Says Dems Are Hiding Files

Philadelphia, May 14 (AP)—Rep. Hugh D. Scott, Jr., (R.-Pa.), chairman of the Republican national committee, says the Democrats are hiding the files on "subversive" federal employees.

"There is no way a Republican can get at the files on these people," Scott asserted last night, "because the Republicans are in the minority. An executive order forbids any cabinet member to show his papers to any Congressional committee without Presidential approval."

Scott spoke at LaSalle college and urged college students to take an active part in politics or else a "government of indifference, by the ignorant, for the benefit of insiders, will take you to the cleaners."

Scottsdale, Pa., May 14 (AP)—Richard Thorn drove down the driveway of his home and on to a baseball game yesterday.

His father looked out a window and saw the body of Richard's five year old brother, Arthur, lying in the driveway. Richard was called home from the ball game.

Coroner Joseph Check said Richard 18, apparently didn't realize the car had struck his brother on the rough driveway. "It was purely accidental," Check reported. "There will be no inquest."

Interstate League

(By The Associated Press)
Tony (No-hit) West appeared today to have the Indian sign over Interstate league batters.

Fresh from the circuit's first no-hit, no-run game, West tossed the Trenton Giants to a 6-1 triumph over the Harrisburg Senators last night. West allowed only four hits and would have scored a shutout had it not been for a home run by Joe Radsavage, Harrisburg first baseman, in the seventh.

The victory enabled Trenton to remain in second place, two and one-half games behind Wilmington's Blue Rocks who won over Sunbury, 4 to 1.

Allentown's Cardinals dropped to third a game behind Trenton by taking a 7-4 lacing from Hagerstown. Lancaster punched out an 11-4 victory over York.

Lucky Thirteenth For 13th Prisoner

Pittsburgh, May 14 (AP)—Robert Johnson, whose name counts up to 13 letters, was arrested, charged with drunkenness and lodged in cell 13.

His was the 13th case in police court yesterday, which was Friday the 13th.

Police Magistrate W. H. K. McDiarmid studied the evidence and announced:

"Case dismissed."

WORLD POLICE FORCE STUDIED

Washington, May 14 (AP)—A group of senators gave serious thought today to an international police force for the North Atlantic Alliance.

Senators Mundt (R-S.D.) and Hendrickson (R-N.J.) said they are among several lawmakers who look favorably on such a plan to enforce peace.

Mundt said he will back a move for an international police force, to include Spain, Turkey, China, Argentina, and "all other non-Communist countries of the world."

Hendrickson said he is "sympathetic to the objectives," but has not yet become an active supporter of the plan. He added that he'd like to see it done under the United Nations. The two senators gave their views to reporters in separate interviews.

Bridge expert Ely Culbertson has interested a group of Senators in his idea for setting up a "contingent force" among the 12 pact nations. This volunteer army would be made up of exiles and citizens of countries not large enough to have their own armies. It would be controlled by a central council on which the United States would have two votes and the other countries a total of five.

Culbertson said this proposal will be made in the form of a resolution in connection with the Senate's consideration of the Atlantic treaty and arms-for-Europe program. With U.S. backing, he said, the other pact nations probably would accept it.

URGE UNION TO FIGHT VETS BILL

Harrisburg, May 14 (AP)—The AFL state Federation of Labor was urged today to fight proposed new laws granting disabled war veterans and their wives super-seniority in public jobs in Pennsylvania.

The request for union action against the bills was made in a resolution offered at state AFL's annual convention here.

Both measures are now awaiting action by Gov. James H. Duff. One would grant disabled veterans and their wives 15 points and first preference in public jobs. All veterans now have a 10-point advantage. It also provides that in case of dismissals the veteran will be the last to lose his job.

The resolution asserted that "these bills will destroy the civil service system of the commonwealth and its political subdivisions, and will result in displacement from responsible public positions of many thousands of veterans and non-veterans who have given long, faithful and competent service."

Matthew Woll, vice president of the American Federation of Labor, told the convention yesterday that the Taft-Hartley law has "suppressed labor unfairly."

"We have established a centralized government to shackle organized labor," Woll said. He added that "all the safeguards against centralized government have been thrown aside in the mad haste to restrict labor."

In another address, Rep. Hiram G. Andrews, Cambria county, the Democratic floor leader in the state House of Representatives, told the convention that labor "got next to nothing" in the 1949 session of the Legislature.

St. Joe's, F. And M., Lafayette Lead In Qualifying Entries For MAC Track Finals Here Today

The mighty 19 in the Middle Atlantic Collegiate Track and Field Meets being held at Gettysburg college, narrowed to the mighty three today with St. Joseph's of Philadelphia, Franklin and Marshall and Lafayette seemingly ready to battle it out for the team title this afternoon, as far as track honors are concerned.

St. Joseph's qualified eight men in the track finals, F. and M. and Lafayette each placed six men and the nearest other competition in the number of qualified men was LaSalle with five. Gettysburg came through with one man in the eliminations.

Tom Foley, of St. Joseph's, seemed a sure bet to win the 220 yard low hurdles, judging by the performance he turned in Friday afternoon and Richard Robinson of Alfred, seemed likely to do the same in the 220-yard dash. Both were champions in those classes last year. Foley had little trouble setting the best time in the semi-finals, 0:25.7 seconds, and Robinson breezed through in 22.3 seconds in the dash semi-finals to equal the mark he set last year while winning the title.

Gettysburg placed John Schellhase in both the 100-yard dash and 440, leaving him to take care of all the track honors that the college can hope for. If the locals are to make up for lost time this afternoon they will have to concentrate heavily on the field events. Dwight Speaker, Bullet sprint star, is out of the meet due to an injured leg sustained earlier in the week.

The championships got underway Friday afternoon with a parade of athletes led by the Gettysburg college band. The flag was raised at the field and then Dr. Henry W. A. Hanson dedicated the new track "to a philosophy of education that recognizes the fundamental importance of a healthy body; to the building of sturdy manhood which will provide clear vision and healthful thinking and to high standards of good sportsmanship." C. E. Bilheimer, director of the meet, introduced Doctor Hanson.

PITCHING FOR A'S COLLAPSES

Philadelphia, May 14 (AP)—The collapse of his "invincible" pitching staff set Connie Mack to wondering today whether, after all, 1949 is to be the year for that "one more pennant."

A month ago a chipper Mack let it be known he thought that his Philadelphia Athletics could win the American league pennant this year. He had good reason to be elated. Phil Marchildon was in great shape, Dick Fowler had burned up the grapefruit circuit and everybody knew what Joe Coleman and Lou Brissie could do with a baseball.

The club started out all right. The pitching was shaky, but a surprisingly powerful hitting attack carried the A's through. But, then, quite suddenly the roof fell in.

Marchildon injured his arm. Fowler was re-stricken with bursitis, and Coleman and Brissie quit winning ball games.

The A's start a long home stand today after an unhappy road trip in which they won only three in eight games. The A's are buried in sixth place with a won-lost record of 11-13, their poorest in three years.

The 36-year-old Mack says "I'm confident" the club will pull out of its slump. But he knows, as do all baseball fans, that if the A's pitchers don't start winning, the club may end up deep in the second division.

Eastern League

(By The Associated Press)

The Elmira Pioneers skidded from the top of the Eastern league to third place last night. They bowed to the last-place Williamsport Tigers, 6-2.

The Albany Senators, who had shared first with the Pioneers, took over sole possession of the leadership with a 5-2 conquest over Hartford. Righthander Eddie Kalski held Hartford to three hits.

The Wilkes-Barre Indians slid into the second slot, a half-game behind Albany, with a 10-5 decision over the Scranton Red Sox. Meanwhile, the Utica Blue Sox thumped the Binghamton Triplets, 17-5.

NEW FLAREUP BETWEEN CARDS AND PITTSBURGH

By JACK HAND (Associated Press Sports Writer)

The Major league "rhubarb" season is in full swing with the St. Louis Cards and Pittsburgh Pirates in the star bout.

Bad feeling first sprouted between the Cards and Buccos the night of April 27 when Stan Rojek was hit twice by a pitched ball, the second time, he was sidelined for over a week. Some of the Pirates thought it wasn't an accident.

Another Incident Last night it burst forth again when St. Louis Catcher Joe Garagiola behind the bat in the Rojek "incident," and Pittsburgh Pitcher Rip Sewell collided after a near "beating."

Garagiola, who had hit the dirt a few seconds earlier to escape one of Sewell's pitches, tapped a grounder toward first base. It was the routine comeback from a hitter who was used to even matters with a pitcher.

Sewell came over to cover the bag and bumped into Garagiola, sending him sprawling.

Players Swarm Over Field Players of both teams and their managers swarmed on the field at Pittsburgh but cool heads prevailed before a punch was thrown. Umpire Jocko Conlan told Managers Billy Meyer and Eddie Dyer he would clear both benches if order was not restored immediately.

Eddie Bockman's ninth-inning homer off Red Munger gave Pittsburgh a 3-2 edge over St. Louis, breaking a 3-2 tie. Wally Westlake and Ralph Kiner accounted for the other Pirate scores with homers. It was the sixth of the year for Kiner.

The New York Giants and Boston Braves remain tied for the National league lead after the Friday the 13th activities that called for an all-night program.

Braves, Giants Win Larry Jansen held the Phillies to five hits while Bobby Thomson and Johnny Mize whopped it up to celebrate Manager Leo Durocher's new two-year contract with a 9-1 win.

The Braves needed 18 hits to shade Brooklyn, 6-5, in 10 innings, squaring Johnny Sain's season record at 3-3.

Cincinnati climbed into third place on a 10-hit shutout by Red Lively who notched his third win by blanking Chicago, 7-0.

Detroit bounced St. Louis, 7-2, behind Ted Gray's pitching and Chicago trimmed Cleveland, 11-10, in a three hour-11-minute slugfest in the only American league action.

The other four clubs were not scheduled.

Signor, who secured two of the Warriors' three safeties, opened the fourth with a single. A sacrifice by Kump, a hit batsman and a double by Knox was good for a run.

Again in the sixth Signor opened with a single. Kump hit to the first baseman who bobbed the ball and Signor streaked to third and raced home when a wild throw was made at third base. Two bases on balls loaded the bases but the Warriors could not add another run.

The victory marked the fifth against but one defeat for Gettysburg.

On Tuesday the Warriors play Delone at MoSherrystown and on Wednesday meet Shippensburg here in another league tilt.

Bullets' First Relay Team In 1908

When freshman relay teams from 14 colleges lineup this afternoon for the medley relay event of the Middle Atlantic Collegiate Track and Field association's meet at Gettysburg college, it will be a far cry from Gettysburg's first relay team back in 1908.

The program for the track and field meet contains a photograph of the college's first relay team. It included Edmund L. Menges, class of 1908; Zenas O. Fissus, also of the class of 1908; H. Stanley Pownall, another '08'er; Clarence L. S. Raby, 1909, and Robert H. Gearhart, class of 1910.

Menges is now a minister in Huntingdon, Pa. Another of the relay team, Gearhart, also entered the ministry, and resides in Philadelphia, and Raby is now Dr. Raby, assistant superintendent of schools, Philadelphia.

Friday's Score Gettysburg, 2; Chambersburg, 1. Tuesday's Game Chambersburg at Shippensburg.

After having been dealt their first defeat last week at Chambersburg, the Gettysburg high school Warriors reversed the tables here Friday afternoon by noising out the hitherto unbeaten Trojans 2-1 in a South Penn baseball league game.

The Trojans, twice-champions of the league, had won seven in a row until Friday.

Ronnie Kump again hurled a supreme brand of ball, permitting two hits and fanning 10 batsmen. He had a shutout going into the final inning when Cockley, leadoff man for the Trojans, smashed a homerun to deep left field.

The Warriors secured but three hits off Miller but all figured in the scoring.

Signor, who secured two of the Warriors' three safeties, opened the fourth with a single. A sacrifice by Kump, a hit batsman and a double by Knox was good for a run.

Again in the sixth Signor opened with a single. Kump hit to the first baseman who bobbed the ball and Signor streaked to third and raced home when a wild throw was made at third base. Two bases on balls loaded the bases but the Warriors could not add another run.

The victory marked the fifth against but one defeat for Gettysburg.

On Tuesday the Warriors play Delone at MoSherrystown and on Wednesday meet Shippensburg here in another league tilt.

Under that plan it could become as important as the Southern Intercollegiate, one of the major golf events in that sector. . . . Hot tip hereabouts is to keep your eye on Navy's next football season. HAPPINESS WHILE YOURS

The late Dr. William (Billy) Lyon Phelps once said: "Happiness is much more dependent on the mental attitude than on external resources. This would be an absurdly obvious platitude, were it not for the fact that ninety-nine out of a hundred persons do not believe it."

In youth happiness comes and is taken as a matter of course. There is immediate complaint if it doesn't come in big doses. In later life, however, happiness has to be courted. Some even try to buy it, while others foolishly think that sensual pleasure brings it. "Billy" Phelps was right, however. Happiness is largely one's mental attitude.

Happiness has to be earned just like we have to earn our daily bread. But we earn it through selflessness, kindness toward others, and through consideration for the feelings of others. We have an inrush of happiness when we make others happy. And we gain it when we have become creative and done something that affects the wellbeing of others. It's what we give of ourselves that returns the greatest happiness.

We are apt to speculate upon gaining happiness at some future date "when our ship comes in" or when a certain objective has been gained. But genuine happiness has to be grasped a day at a time, or perhaps an hour at a time—while it is yours to take. Better still, while it is yours to give. It is our attitude that furnishes us with happiness. Our attitude toward life, toward our fellowman, and toward God.

Our mental attitude toward our work can make us very unhappy, or it can make us the opposite. We do best the things that give us the greatest amount of pleasure and satisfaction. Most of us have more potential happiness than we realize. We are always better off than we make ourselves believe. We ought to take what happiness we know we have while it is ours, and make the most of it. Else it may leave us. Happiness is always cumulative.

I am amazed at the show of happiness by those who seem to have the least reason to be happy. Shut-ins, for example, and the brave poor.

Trouble With Vents

That crankcase ventilating system is a valuable aid to longer engine life, but it accounts for a lot of oil loss these days. It is not until the car is rolling fast enough to create an air draft that the ventilating system really starts to function. Thus if there is considerable escape of combustion gases into the crankcase more oil will be driven into vapor form and there will be more oil loss the faster the car travels. Often the air draft around the exit vent will actually cause oil to be sucked from the crankcase. Some mechanics have discovered smart ways of drilling a few holes in the exit vent to break the suction effect. Right now many motorists are finding it profitable to clean out the vents, and especially the oil filler pipe so that there is less chance for pressure to build up.

For some odd reason there is cur-

rently a good deal of trouble from squealing fan and generator belts. This occurs largely during cold motor operation, but in a few cases is more continuous. Naturally a lot of owners are perplexed, especially as the usual treatment with dressings and fan belt lubricants fails to silence this particularly annoying birdie. Oddly enough most folks are on the wrong track in trying to solve this one. Instead of lubricating the belt the trick is to rough up its edges which are the real seat of the noise. Use the side of a screwdriver for this, and do the job when the engine is switched off, of course.

This One Overlooked

Abnormalities in the oil pressure reading may, of course, indicate pump trouble, excessive crankcase dilution, oil leakage, overheating and a host of other things, but this would be a happier world if more folk considered possibility of a clogged oil pump intake screen. This is easily cleaned after the oil pan is taken down. The position of the oil pump intake is always important. I recall one car where energetic owners sometimes get into trouble by failing to look out for a crankcase baffle that will hold the intake up too high unless the oil pan is carefully replaced. The idea of the floating intake is to enable the pump to draw the top layer of oil which is cleaner yet always follows the oil level down.

Mechanic Joe Speaking:

"These days anyone who is handy around a car has to be on his guard unless he has taken the trouble to study the particular design of his possession carefully. One of my mechanically inclined customers gave me a convincing demonstration of this.

It seems that after doing a brake reline job himself he was puzzled because of a strange thumping noise when decelerating. I found that he had simply reversed the two brake shoe return springs of one of the front wheels. They are of different tensions and as a guidance to service people they are colored differently.

Now That You Ask

Every now and again someone who has been working on a brake master cylinder will ask why it is that the brake pedal push rod isn't attached to the piston and cup. The answer goes back into history to a time when the early hydraulic systems did have a rigid connection at this particular point. What happened, however, was that the released brake pedal pulled the piston and cup back faster than the fluid wanted to return to the master cylinder. This sucked in air, caused a lot of mysterious trouble. Today the piston and cup return to the off position by means of the piston spring. I remember installing one of the "new" master cylinders on my Jordan car

and delighting in the freedom from air leakage. The master cylinder was designed for use on the Hupmobile. Remember?

Figuring The Ratio

If you are one of those curious people who wonder if the rear axle ratio of the car is what the instruction book says it is, there is a simple way to find out for yourself, provided the propeller shaft is exposed. All you have to do is mark the shaft with chalk and count the number of turns it makes for one complete

revolution of the rear wheels. If the shaft makes four turns you'll figure a 4 to 1 ratio. You must measure carefully to get it exact when going into fractions above or below this average, but at least you'll decide the point as to whether the ratio on your car is or is not the sort needed for best performance in your part of the country. Occasionally cars are delivered to the wrong areas.

Many a motorist who knows what he is getting when his favorite me-

chanic grinds the valves is a bit confused when told that the spot operation of the motor at lower speeds is due to worn valves guides. It is simply because not too many people know that the valve stems need guides in which to slide up and down and that these guides are important in that they must neither be too tight nor too loose. Some-

times guides will be a little snug on a new motor, causing stickage. Here it is well to avoid the temptation to have the guides reamed larger. Better to put up with the annoyance until the guides wear normally. Guides can be driven out and replaced when worn. There is a special dial gauge which, inserted into the (Please Turn to Page 8)

NEW LOUNGE AT GLENN C. BREAM GARAGE IS BUSY

The customers' lounge at the Glenn C. Bream garage, York street, is proving a popular place these days.

Last Sunday about 60 residents of the town "dropped in" to take advantage of the facilities, the owner said, and each Sunday seems to attract an increasing number of visitors.

The lounge provides not only entertainment for the customers, but facilities for the business man to carry on his business while waiting for his car to be repaired.

A cine-compact 16-millimeter movie projector provides continuous motion picture shows for the customers—and also permits him to turn it on and off at will by simply removing or placing a plug. The technicolor movies are thrown against a daylight screen that is an integral part of the projector so the movies are plainly visible without darkening the room.

Typewriter And Telephone
Comfortable lounging chairs are available for those who wish to use them and a table is laden with late issue magazines. A typewriter is available for the businessman who wishes to make out reports while waiting and there is a telephone so he can make business calls while waiting.

The lounge, located above the working floor of the garage, has windows all around it so the customer can, if he wishes, watch the progress in work on his auto on the floor beneath.

Bream pointed out that the lounge also has some unexpected uses. A group of people from Florida arrived in Gettysburg at 3 o'clock the other morning. Their car needed repairs and the Bream garage was called. The Floridians stretched out on the chairs and slept while their car was repaired and then continued on their way. The garage provides 24-hour service.

VFW Post 15 Observing 14th Anniversary; Launches Membership Drive

Veterans Of Foreign Wars Post Emerges Triumphant After Many Hard Years; Owns New Home

FOREWORD

When the Veterans of Foreign Wars was organized in 1899 (50 years ago), it was founded explicitly as an organization aimed at keeping alive the camaraderie and memories of the men who had served side by side on soil other than that of continental United States. It was not formed for the purpose of "snubbing" or defying other veterans' organizations. As different vet groups have their conditions for membership, so the Veterans of Foreign Wars has its conditions. This growing organization has gained an increasingly favorable name in its constant willingness to cooperate with other veterans' organizations and in its participation in the affairs of its home community.

It is with this thought in mind that the following article was prepared as a brief history of the Gettysburg VFW post.

By POST HISTORIAN

ON Wednesday evening, April 10, 1935, A. D., a group of Gettysburg citizens, who, by right of having seen foreign service in the armed forces of the United States of America, held a meeting in the court house at Gettysburg, Adams County, Pennsylvania, in order to discuss the feasibility of organizing a Veterans of Foreign Wars post for Gettysburg and Adams county.

In the years succeeding the Civil War, veterans' posts in the United States had been powerful factors in the everyday life of Americans. So powerful were they, in fact, that several Presidents and innumerable congressmen, senators and other public officials were elected to office on their war records or their ability to "swing" the veteran vote. While the wounds of civil conflict healed hundreds of veterans' posts sprung up—in the north the Grand Army of the Republic, and in the south the United Confederate Veterans. In Gettysburg the Corp. Skelly Post No. 9 GAR organized June 17, 1872, was for many years one of the largest and most influential organizations in the affairs of this locality.

Post No. 510, GAR served New Oxford and much of eastern Adams county in veterans' post-war associations.

Vets' Posts Prominent

While these Civil War groups were still relatively powerful in the destinies of our state and nation, there appeared upon the American scene a new crop of veterans.

Around the turn of the century new organizations of veterans made up of Spanish-American War participants began to make their weight felt in the American way of life.

It was definitely the men of this age group who were largely instrumental in forming what is now known as the "Veterans of Foreign Wars of the United States."

The Veterans of Foreign Wars was organized in April, 1899, the 50th anniversary of which was celebrated last month. Three existing veterans' organizations of that period formed the nucleus of what was to be known as the Veterans of Foreign Wars. They were: the Army of the Phil-

ippines; American Veterans of Foreign Service, and the Army of the Philippines, Cuba and Puerto Rico.

The Sgt. William M. Steffy Post 126 United Spanish War Veterans has been existing in Gettysburg for more than 40 years. When it began there were only three members—Charles T. Zeigler, John McIlhenny and John D. Keith. Many of that organization's members are also members of Post 15, VFW.

Post 15 Organized

Although the "first" meeting of Gettysburg's Veterans of Foreign Wars post was held on Wednesday, April 10, 1935, the "organization" meeting took place one week later, on April 17.

On the date of the organization meeting, 32 eligible members had manifested their intentions by signing as charter members.

The charter being closed and signed on May 15, 1935, listed 57 names and the assignment of the number "15" by the Department of Pennsylvania, Veterans of Foreign Wars. Those whose names appear on the charter are: Albert Rottler, George R. Markle, Otis M. Hoover, Joseph H. Hardman, Harry E. Carbaugh, Russell D. Shetter, Thomas R. Enoch, John P. Highland, Roy C. Mackley, Raymond R. Fridinger, Preston W. Singley, William H. Dubbs, Clayton A. King, George D. Ditchburn, Edward I. Florence, Earl M. Stine, Charles B. Kuhns, Erle R. Deardorff, Edward J. Myers, Clyde D. Berger, Richard B. Page, Jacob W. Dubbs, Howard G. Strausbaugh, Fred W. Martz, Roy L. Andrew, Ralph Musselman, Isaac J. Mertz, Jacob W. Haverstock, Henry P. Steininger, William J. Chambers, Clarence G. Hilty, Edmund W. Thomas, Charles P. Ohler, James B. Routsong, Luther E. Sandoe, Paul O. Diehl, Clayton E. Topper, Roy D. Renner, Elmer A. Snyder, Lloyd W. Garretson, Jacob C. Lawver, Robert E. Tipton, Ray H. Miller, Robert E. Eicholtz, Edgar A. Miller, William B. Eckenrode, Verne J. Criswell, Clyde A. Shultz, Franklin B. Cluck, Fred B. Uhrich, Charles H. Cool, Ralph C. Deatrick, W. A. Raffensperger, Lloyd E. Schultz, George C. Jones, Alexander Karas and George D. Wolfe.

Markle Organizes Post

According to available information and minutes books of past meetings it is concluded that the "father" of Post 15 is George R. Markle, who was largely instrumental in the organization of the post.

It was Mr. Markle (now a member of Post 2506 VFW, Hanover) who acted as general chairman during the organization processes. Several other state and national VFW officers also aided the local post to get its start.

The first slate of officers of Post 15 was as follows: Commander, H. F. Steininger, Sr.; senior vice commander, J. P. Highland; junior vice commander, R. C. Mackley; quartermaster, E. R. Deardorff; chaplain, the Rev. George D. Wolfe; officer of the day, T. R. Enoch; trustees: O. M. Hoover, P. W. Singley and C. E. Topper; adjutant, C. B. Kuhns; guard, William Dubbs, and quartermaster sergeant, F. W. Martz.

During the comparatively short but turbulent history of the post,

meetings had been conducted in various locations before the acquisition of the present post home on Carlisle street, in Gettysburg. Over the years the members can extend their gratitude to the county for use of the Adams county court house; to George F. Eberhart for the use of the former Eagle Hotel (now the Adams House); the M. A. Hartley company; the former Mrs. Smith's restaurant; the First National bank of Gettysburg; Alexander Karas' Keystone Radio service and C. W. Epley.

Parade Held on Charter Day

The Gettysburg post was instituted Wednesday evening, May 15, at a meeting following the first all-VFW parade Gettysburg has ever witnessed and the first that local members took part in as a body. VFW units from York, Harrisburg, Shamokin, Carlisle, Hanover, Chambersburg, Middletown and Waynesboro were in the line of march for which music was provided by the Gettysburg College band, the York (White Rose) Kilty Band, and the drum and bugle corps of Hanover VFW post No. 2506.

At the institutional meeting in the court house, following the parade, the aforementioned slate of Post 15 officers was installed.

VFW Chief of Staff Lloyd C. Pike introduced Eugene W. Bulleit who welcomed the Veterans of Foreign Wars on behalf of the Gettysburg Chamber of Commerce. This was followed by speeches by State VFW Commander James E. Van Zandt (now Congressman) and George R. Brobeck, Washington, D. C., national legislative representative of the Veterans of Foreign Wars.

First Benefit Affair

The first public affair of the post aimed at building up a financial reserve was a combination bingo party and square dance which was held at Swope's Roseland park on the battlefield, south of Gettysburg. At a later post meeting it was reported that from this initial venture a profit of \$8.90 rewarded the efforts of the "founding fathers."

The second bingo-dance was held on July 12, 1935 and netted a profit of \$5.00 and on a third attempt, July 26, 1935, the post encountered a \$2.30 deficit on the same endeavor. But subsequent bingo games (minus square dancing) proved successful and a great portion of the not-too-copious revenue of the post was derived in that manner.

At one of the earlier post meetings at which 11 members were in attendance a "free will" offering was lifted which netted 81 cents. One must remember, in passing, that in the early days of this post "things were tough all over" and, indeed, a man was considered extremely fortunate to have steady employment. "Bread-lines" and "bonus-marches" were by-words in the American scheme in those days, as are "iron curtain," "Marshall Plan" and "housing shortage" in these unsettled days.

From the beginning, Post 15 has endorsed national and state legislation which it deemed favorable to the prosperity and security of the nation and state. One of the first recorded instances of Post 15 backing national legislation was at a meeting Wednesday, July 10, 1935. A resolution was approved to support a move to have the Gettysburg National Military Park returned to the jurisdiction of the War Department.

Bank First Headquarters

After having held its first meetings at the court house and various other localities, Post 15's first "home" was a \$10-a-month room in the First National Bank building. It

Repairs Being Made At VFW Home

Edward C. Beard, chairman of the Post 15 VFW renovating committee today listed the improvements that have been made and are under way at the post home on Carlisle street.

On the committee with Mr. Beard are Wm. H. Armor and Thomas J. Collingsworth. The Ladies Auxiliary recently appropriated \$200 to help the post defray the expenses of the renovation program.

Among the improvements listed by Mr. Beard are: linoleum coverings for all rooms on first floor with exception of meeting room; cupboards installed, furniture re-arranged in kitchen along with new coat of paint; new wallpaper and woodwork paint for all rooms; now powder

room for ladies installed on first floor; new blinds and drapes for all windows; new lighting fixtures; linoleum floor installed in canteen in addition to refinishing of woodwork; new storerooms with cement floors.

Exterior improvements announced by Mr. Beard's committee include the painting of all outside woodwork to the home; regrading and seeding of lawn, along with removal of hedge and trimming of trees and shrubbery; new cement steps in front of building with three iron handrails; new fence erected between properties; lattice work repaired on front porch; VFW sign and cannon repainted; and cellar windows repaired on all sides of the building.

was known, according to early records, as the "Dugout." The first meeting in this new "home" was Wednesday, August 7, 1935—the first of a three-month leasing period.

The second location used by the post was the third floor of the M. A. Hartley building on Carlisle street. The first meeting in this location was held October 13, 1935.

On Sunday afternoon, December 8, 1935, Post 15 was allotted a half-hour program by the VFW Department of Pennsylvania over a Harrisburg radio station. The Rev. Dr. Harvey D. Hoover, of the Gettysburg Lutheran Theological seminary was the speaker and the post engaged and furnished transportation for the Gettysburg Blue and Gray band which furnished music at intervals during the half-hour broadcast.

There are no records—minutes or otherwise—of the post's activities in the periods November 25, 1936 to May 4, 1938, and from October 18, 1938, until October 28, 1941. It is presumed that in these periods the post nearly "went to pot" as it were, due to unforeseen circumstances.

However, the past being dead and buried, much praise can be heaped upon the small and gallant band of comrades, who through their loyalty and devotion to the post, kept the charter open by the utilization of their own resources, until such time when the fortunes of the post would again be on a firm basis.

In passing, it is well to add that during these troubled and only partially-recorded years, the post room in the Hartley building was relinquished and whatever meetings were held were convened in the court house—the "cradle" of Post 15.

The men to whom Post 15 owes its life in this period of stalemate are—as far as can be ascertained—the following: Comrades John W. Hewitt, Clyde D. Berger, William B. Eckenrode, George Markle, John P. Highland, Luther E. Sandoe, Roy Enoch, R. E. Tipton, Roy Mackley and possibly a few others.

It is from this nucleus that the present organization was re-formed. For, as early as 1943, VFW eligibles from World War II were beginning to sign (or be signed by relatives) to membership to Post 15. With the influx of new blood the post took a new lease on life.

The first recorded meeting at which World War II members took part was on April 18, 1945. This was held at the Alexander Karas business establishment at 229 North Stratton street. Nomination and election of post officers was held on this date, as follows: Commander, Alexander Karas; senior vice commander, William B. Eckenrode; junior vice commander, Robert E. Tipton; adjutant, John W. Hewitt; quartermaster, J. H. Harness; trustees: Clyde D. Berger, Lloyd Garretson and Luther Deatrick; service officer, Willard C. Weikert; sergeant-at-arms, Donald Wisotzky. It is also observed that at this meeting machinery was set in motion to form a ladies auxiliary whose aid would be invaluable to the post. A committee was appointed with instructions to get the project under way and be prepared to report its findings at a later meeting.

On June 15, 1945, the committee designated for this purpose under the chairmanship of Willard C. Weikert, reported that on June 6,

1945, a ladies auxiliary had been formed at a meeting at the home of Mr. and Mrs. Clyde D. Berger, Carlisle street, at which 21 mothers, wives or sisters of VFW members had been signed.

In 1945 Memorial Day Parade

In the Memorial Day parade of May 30, 1945, Post 15 summoned enough "strength" to put a nine-man contingent in the line of march. It was indeed a paltry representation when viewed beside other veterans' organizations but it was a beginning and at least drew rounds of applause on the route to the National Cemetery at which ceremonies Sen. Arthur Vandenberg, of Michigan, was the orator of the day.

It is entirely due to the labors and influence of a handful of Post 15 comrades that in the victory-happy days of 1945 negotiations were begun to obtain a permanent post home. This small band of vets were mostly of World War I vintage and were in positions of knowledge and influence not yet enjoyed by the new crop of veterans made in World War II.

Accordingly, on May 23, 1945, a committee was appointed and instructed to take option on the Buehler property at the corner of Carlisle and East Stevens street.

Finally on December 12, 1945, in the Buehler property, newly-vacated by its former owners and now purchased by the trustees and temporary house committee, the FIRST meeting was held. No more would Post 15 members be herded from pillar to post in quest of a place to hold meetings and conduct the business pertinent to cementing the comradeship and welfare of the post.

Home Association Formed

At a special meeting held January 2, 1946, a Home Association was formed and a slate of directors elected as follows: Donald Hershey, Kenneth Mickle, George C. Mitchell, Glenn Raffensperger, M./Sgt. Raymond Strohm, Samuel Kessel, Robert E. Tipton, William B. Eckenrode, Clyde D. Berger, Harold Y. Cromwell and Mahlon P. Hartzell, Jr.

In June, 1946, M./Sgt. Raymond Strohm, then stationed at Gettysburg college on the ROTC staff, donated the flagpole which now stands in front of the post home and was instrumental in having the two 37-mm. anti-tank cannon placed on either side of the staff.

On June 26, 1946, at a meeting, the post granted permission to the William E. Steffy post of Spanish-American War veterans and their auxiliary to use the post home for their meetings.

In October, 1946, Post 15's Auxiliary was enjoying its highest peak of activity and cooperation with the post. During this time the ladies purchased furniture for the "north-west lounge" and were at this time serving meals for the members at the post home.

On the evening of October 16, 1947, the post held its first "feed" at the new home. Baked ham was the main course and practically every member turned out for it. An orchestra composed of college VFW members provided music for the "messing of the troops."

On Sunday afternoon, May 26, 1946, a fried chicken feast was held by the post at Benner's Grove, near Barlow. Torrential rains which persisted throughout the day failed to prevent a huge turnout of members.

From 1945 up to the present time the post has made rapid strides in becoming a potent factor in the community, and though it still does not realize its total strength and worth, it is a recognized part of Gettysburg and Adams county.

Com. A. J. Roth Lists Campaign Ribbons, Holders Of Which Are Eligible To Join Local VFW

The list of campaign ribbons, possessions of any one or all of which make an ex-G.I. eligible for membership in the Veterans of Foreign Wars, was announced today by Commander Arthur J. Roth of Gettysburg Post 15, VFW.

"The following list is to be used as a guide in determining eligibility for membership, and is furnished as a matter of information concerning the periods during which campaign and/or service medals were authorized by the War and Navy Departments.

"In using the term 'Navy' it is understood this includes service in the Navy, Marine Corps or Coast Guard of the United States of America," Mr. Roth explained.

"The following campaign medals, and the periods for which issued, have been authorized by the United States of America, and the holder of any such medal or medals, is recognized as possessing the requirements of eligibility," Mr. Roth said.

Expeditionary Medal—Navy, February 12, 1874, Indeterminate. Navy and Marine Corps personnel who served in the defense of Wake Island, December 7 to 22, 1941, will wear a silver "W" on the suspension ribbon or service ribbon bar of the appropriate Expeditionary Medal.

Spanish Campaign Medal—Army, May 11, 1898 to August 16, 1898; Navy, April 20, 1898 to December 10, 1898.

Army of Cuban Occupation—Army, July 18, 1898 to May 20, 1902.

Army of Puerto Rican Occupation—Army, August 14, 1898 to December 10, 1898.

Philippine Campaign—Army, February 4, 1899 to December 31, 1913; Navy, February 4, 1899 to September 15, 1906.

China Campaign—Army, June 20, 1900 to May 27, 1901.

China Relief—Navy, April 5, 1900 to May 27, 1901.

Army of Cuban Pacification—Army, October 6, 1906 to April 1, 1909.

Cuban Pacification, Navy, September 12, 1906 to April 1, 1909.

Mexican Service—Army, April 12, 1911 to June 16, 1919; Navy, April 12, 1914 to February 7, 1917.

At one period since World War II Post 15 enjoyed a 500-plus membership and hopes to regain that quota through a program of "post rejuvenation." The roster stands at a figure decidedly less at this time but is slowly rising. The reduced amount of members can be attributed in some measure to the fact that there is at the present time seven Veterans of Foreign Wars posts in Adams county plus other veterans' posts.

The other VFW posts are located in Fairfield, Arendtsville, Littles-town, McSherrytown, New Oxford and East Berlin. With these new posts and other veterans' posts and their attractions, Gettysburg Post 15 has discovered that it will indeed have to be alert in order to maintain its present place in the sun.

(The foregoing material was collected and inscribed during the year, 1948, and was brought completely up to date for this issue of The Gettysburg Times. For the sake of brevity, it was decided

STATE'S RENT 'DE-CONTROL' BILL IS SIGNED

Harrisburg, May 14 (AP)—Pennsylvania communities today received authority to use the home-rule provision of the Federal rent control law for decontrolling local areas.

Gov. James H. Duff signed into law a bill allowing municipalities to hold hearings and pass resolutions on the question. At the same time, the state law authorizes Governor Duff to approve or disapprove the local resolution and if he approves, to forward it to housing expediter in Washington.

The federal law permits the governing bodies of local communities to hold hearings on 10 days' notice to determine if a shortage in rental housing exists such as to require rent control.

The Pennsylvania law defines a municipality as "any city, borough or township" but make no mention of towns. The only town in Pennsylvania is Bloomsburg. The decontrol powers will remain in effect until May 1, 1951, or earlier by a proclamation of the President or a resolution of congress ending them.

Measure On Traffic Lights

Duff also signed other new laws to:

Set up a five-member board of cosmetology and give it authority to regulate beauty parlors and license beauticians instead of the state Department of Public Instruction.

Limit the power of school districts to lease space to colleges and universities to "vacant buildings" starting July 1.

Authorize the state highways secretary to approve the use of other traffic lights than those erected at curbs.

Allow third class cities and boroughs as well as Scranton to enact ordinances for the removal and impounding of illegally parked vehicles.

Vetoes Two Bills

Duff vetoed two measures on the grounds approval would cost the state \$40,000 a year without any gain to the public.

The first would have required the monthly publication of lists of banks at which state funds are deposited instead of quarterly at an increased cost of \$20,000 a year. The second would have returned to second class townships an estimated \$20,000 a year in fees and fines for the licensing of eating places in such political subdivisions.

"There would be imposed upon the Commonwealth both the expense and the responsibility of making sanitation inspections prior to the issuance of the licenses, while, on the other hand, the Commonwealth would be deprived of the income necessary to defray the administrative costs," Duff stated.

Other New Laws

Other new laws approved provide for:

A maximum of \$20,000 on the insurance of any individual under group life insurance policies and allow issuance of such policies to cover units of the Pennsylvania National Guard at the cost of members.

Dental care in hospitals under Blue Shield Medical Service plans.

Miss Margaret Ann Moul, East Berlin, who has studied voice for the past four years with Mrs. Mildred Rogers Dunstan R. 2, and has often appeared on local programs, was a guest artist this week on the spring concert of Hanover's Beethoven club.

Mrs. Kathryn Wehler Donahue, teacher at the Clear View school, near town, reports that these pupils have a record of perfect attendance for the past month: Glenn Alwine, Gary Daum, Darlene Baker, who also made the honor roll for the period, and Kenneth Bealm, Thomas Ecker, Lewis Shank, Rosalie Payne, Myrna Lee Bream, Bonita Laughman, Betty Lou Payne, Peggy Ann Yingling, Elton Beaver, Burnell Hockensmith, Ray Shank, Evelyn Bream, Pearl Gunnet and Marilyn Miller. Honor pupils who were not, however, perfect in attendance, are: Philip Beamer, Dolores Good, Barbara Jane Aldridge, Gerald Beamer, Ellen Starnier and Ronald Millhimes.

Approve Self-Rule

For West Berlin

Berlin, May 14 (AP)—The United States, Britain and France today approved self rule for western Berlin under limited allied supervision.

It was announced that the three western commandants had signed a self rule statute in the form of a "statement of principles." The statute grants the Germans direct administrative control of the western portion of the city but reserves wide supervisory powers to the three commandants.

Fields of activity specifically reserved to the occupation authorities include: Disarmament and demilitarization; restitution, reparations, decentralization, foreign interests in Berlin and claims against Berlin; relations with authorities abroad; displaced persons; protection and security of allied forces, control of convicted German war criminals, and supervision of police "in view of the special circumstances prevailing in Berlin."

Experts said only the 84 powerful blowers in the walls kept gas fumes from building up a blanket that might have turned the tunnel into a deadly gas chamber.

Vet Of Combat Flying

Is Killed In Crash

Wilmington, Del., May 14 (AP)—A 27-year-old veteran of 175 combat missions during World War II plunged to his death in an F-47 Thunderbolt on a routine training flight last night.

Killed was Capt. William D. Livergood, executive officer of the 142d Fighter Squadron, attached to the Delaware National Guard. The former army officer was unmarried. He served in the China-Burma-India theater during the war.

Witnesses said the plane, which crashed near the New Castle county airport, was leading a formation of Guard planes coming in for a landing when it nosed over and crashed.

COLLEGE OFFICIAL DIES

Philadelphia, May 14 (AP)—Louis G. Schacterle, 67, secretary of the board of trustees of Philadelphia College of Osteopathy, died yesterday.

A graduate of Rider college, Trenton, N. J., Schacterle was director of admissions at the Osteopathic college for 15 years. He was widely known in the Osteopathic profession as a "good will" ambassador for the college.

China's population is roughly made up of 60 million city dwellers and 400 million farm and rural folk.

BULLDOZERS SEEK TO CLEAR HOLLAND TUNNEL

By ARTHUR EVERETT

New York, May 14 (AP)—Bulldozers scraped through deep ooze and matted wreckage today to clear the blast-seared Holland tunnel for its daily load of 46,000 cars and trucks.

A big truck, rolling towards New York city with a cargo of chemicals, blew up Friday morning. It spewed fire and poisonous gas through 300 feet of the traffic-clogged tunnel.

However, the tunnel was expected to be ready for normal operations by late this afternoon. Damage may total \$1,000,000.

250 Feet of Tunnel Hurt
Minor explosions and small fires hampered workmen throughout last night but added little to the already severe damage.

Repairmen said 250 feet of the tunnel's inner ceiling would have to be replaced.

New Jersey authorities sought to determine if criminal negligence led to the concentrated destruction on the underwater highway that links New York and New Jersey beneath the Hudson river.

However, the cause of the blast could not be pinpointed in the welter of debris. New York fire officials said atmospheric pressure in the tunnel may have touched off the truck's cargo of carbon disulphide.

Sixty-six persons, mostly firemen and tunnel workers, collapsed or staggered groggily from the tunnel's smoke-fogged depths during a five-hour battle with fire and fumes.

Twenty-six were taken to hospitals with burns or gas poisoning. None was reported in danger.

Experts said only the 84 powerful blowers in the walls kept gas fumes from building up a blanket that might have turned the tunnel into a deadly gas chamber.

Say Pa. Needs Many More Hospital Beds

Harrisburg, May 14 (AP)—Pennsylvania needs an additional 63,000 hospital beds to care for its sick, the state Welfare Department said today.

The department, in making public the 1950 revision of the Pennsylvania hospital plan required under the federal hospital survey and construction act, said the state's 68,479 existing beds must be increased to 131,485 beds.

Some 1,885 beds of those needed, however, will come under 23 projects the department reported approved for federal aid. The total cost is \$28,182,874 with the federal share reaching \$9,239,734.

The department said the state has approved 6,000 beds for the nervous and mentally ill. "This work is well under way and is an unprecedented program in hospital construction," a statement said.

cylinders through the spark plug openings, are useful for checking side play in the valves. That hints of guide wear.

Check The Advance

If you are not getting good results on hills, and the usual checks fail to help matters, it might be a good idea to suspect the automatic spark advance which on most motors is controlled by centrifugal governor weights inside the distributor. Inefficiency here may cut hill speed as much as ten miles per hour. The overall advance is important, of course, but in hill climbing it is especially important that the advancing be in a definite progression. If advance is too sudden the engine will start to hammer and you'll lose speed the instant you let off on the gas to check the hammering. The degree of advance for increase in motor speed varies for different engines, but in most cases the permissible tolerance is just one degree.

What's Your Trouble?

Q. I have had a lot of trouble starting my car when it is warm. I suspected the coil but a new one hasn't made any difference. There is no trouble when the engine is first started cold. J. G. B.

A. This is just a case of wrong procedure when cranking. Open the throttle wide when cranking a hot engine. Don't choke, and don't pump on the accelerator pedal.

Q. The engine of my car runs all right until a skip develops. Then I always find that one of the spark plugs is dirty. There is no telling which plug it will be. What's wrong? H. R.

A. You do not say what make of car you drive or what year but I suspect it is a 1941 model that needs special hotter spark plugs.

Q. There's a peculiar sizzling noise in the engine of my car. Have checked the distributor shaft and the fan. Any idea what this could be? B. B. McD.

A. It could be a loose manifold heater valve. There has been considerable trouble with these valves because they cannot be set tight due to their tendency to stick. Often they are too loose.

Q. When I accelerate the engine of my car and bring the vacuum ignition control into action I see no movement of the distributor. Is there something wrong? L. L. M.

A. No, the distributor body doesn't move, merely the breaker plate.

Q. What would cause the gears to slip out of mesh? The engine mountings are tight, there is no misalignment between the engine, clutch and transmission, and the shift locks are new. The car has 118,000 miles on the odometer. W. B. F.

A. This looks like a case of badly worn gear teeth. That will always make meshing uncertain.

Q. I have often been told that running with the brake lining very thin would allow the rivets to cut the brake drums, but how can rivets which usually are of brass do any damage to such hard metal. Wm. L.

A. That's a good question. I think the answer lies in the fact that the rivets, when exposed, are caught between the brake shoes and the drums.

Q. When undercoating a car should the muffler be covered. And how about the motor pan and the underside of the hood? J. M. Jr.

A. Don't coat any underparts that need cooling, such as the motor pan, the exhaust system, etc. The under side of the hood should be coated.

Mr. Russell will answer questions regarding the safe care and operation of your car.

GUARD MOTHER AGAINST SUICIDE ATTEMPT IN JAIL

Wilkes-Barre, Pa., May 14 (AP) — Prison authorities said today they are taking special precautions against any suicide attempt by a pretty 30-year-old child psychologist charged with murder in the fatal beating of her 15-month-old son.

Mrs. Martha Woodson Kalwaic is lodged in the women's detention home here. She was arrested two days ago at nearby Hazleton and accused of murder in the death of her son, Henry Charles.

Mrs. Kalwaic, a choir singer at Hazleton, was visited by the pastor of her church yesterday as well as by two of the four lawyers retained by her husband, Dr. Henry J. Kalwaic, a prominent dentist.

Said Child Was Jealous

Police Chief Steve Havrilla of Hazleton said the woman admitted beating her son because she feared he might be developing a "Freudian complex."

She said, Havrilla related, that she beat Henry because he was jealous of Mrs. Kalwaic's attentions to Karen, his two and one-half-year-old sister.

Karen was taken away from her home and is staying with relatives, Dr. Kalwaic said. His mother, Mrs. Helen Kalwaic of Philadelphia, is president of the Union of Polish Women of America.

Father Grief-Stricken

Dr. L. S. Reese, coroner who examined the dead child's body, said it was "in the worst condition I have experienced in 10 years as coroner."

Meanwhile at Lynchburg, Va., Charles W. Woodson, father of Mrs. Kalwaic, was grief-stricken at the news. He is clerk of Campbell county's circuit court there.

"If she's sane, she didn't intend to do it," he told reporters. "She loved him. We haven't seen her in several months, but we have been getting letters from her. . . . She seemed perfectly all right."

Discussing reports that his daughter is expecting another child "very shortly," Woodson said: "From a medical viewpoint, that might position of your car. Just address him at 254 Fern street, West Hartford, 7, Connecticut, and enclose stamped, self-addressed envelope for a personal reply. There is no charge."
